| Alwar, Rajasthan

Professional Summary

I am a 2nd year B.Tech student in AI & Data Science focused on building functional web applications. I have developed projects using HTML, CSS, JavaScript, and Tailwind CSS, and I am familiar with Python for Data Cleaning and ML basics. Currently, I'm expanding my skills in Node.js, MongoDB. I also use Figma for UI design. I am looking for an internship for Frontend Development where I can apply my project experience to real world tasks and grow as a developer.

EDUCATION

B.Tech – Artificial Intelligence & Data Science

2024 – 2028 (Expected)

Modern Institute of Technology and Research Centre, Alwar (Bikaner Technical University)

CGPA: 9.64 / 10

Relevant Coursework: Data Science Fundamentals, Machine Learning Basics, Data Cleaning & Visualization, Python Programming, Database Management (DBMS), and Web Development.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), Bootstrap, Tailwind CSS

Backend: Node.js(Learning), REST API Development

Database: MongoDB

Tools & Platforms: GitHub, VS Code, Postman, Figma (basic)

AI / DS (Academic): Python, NumPy, Pandas, Scikit-learn, Plotly, Folium, Data Visualization, Streamlit

PROJECTS

Spotify Clone | [tanvi-962006/Spotify-clone](https://github.com/tanvi-962006/Spotify-clone)

Personal Project

Tech Stack: HTML5, CSS3, JavaScript(ES6+)

- Developed a functional music player interface with real time audio controls including Play, Pause, Next, and Previous functionality.
- Implemented **dynamic playlist management** using JavaScript DOM manipulation to handle user interactions and track selection.
- Focused on **Event Handling** and state management to ensure seamless transitions between songs and UI updates.

Netflix UI Clone | [tanvi-962006/netflix_clone](https://github.com/tanvi-962006/netflix_clone)

Personal Project

Tech Stack: HTML5, CSS3

- Created a **pixel perfect replication** of the Netflix landing page, focusing on high fidelity layout accuracy.
- Utilized CSS Flexbox and Grid to build a responsive interface that handles multi row movie thumbnails effectively.
- Focused on clean CSS architecture to manage complex positioning of background images and text overlays.

CERTIFICATIONS

- Tailwind CSS from A to Z: Master Tailwind CSS Quickly *Udemy, (Feb, 2026)*
- Web Design Course: Beginner to Advanced *Udemy, (Feb, 2026)*
- Website Creation: Start Learning from the Beginning *Udemy, (Feb, 2026)*

Notable Achievements

Team Leader & Grand Finalist | MITRC Internal Hackathon 2026 Cerebrotech Challenge

- **Competitive Selection:** Led a **3 member team** through a multi stage hackathon, successfully clearing the Elimination Round to compete as one of the top finalists.
- **Extended Development:** Managed a **4 day technical sprint** following the initial selection to refine the Machine Learning model and finalize the **Streamlit dashboard**.
- **End to End Ownership:** Directed the project lifecycle from data sourcing (**Github & Parliament records**) to the final pitch presented to the Department of CSE & AI.
